Vandana Pal

Vandana Pal comes from a very simple family background and lives with a family of 3. Her father is a daily wager and mother is a homemaker. She is a very responsible and hard working girl who wants to be able to support her family.

Before joining the CareerReady programme she had no clarity about what she wanted to do in life and had very little confidence about achieving her goals as she did not know much about the next steps and lacked guidance.

She learnt about her learning style and realized her natural abilities through the aptitude test. Work ethics, interview etiquette and communication skills were some of the key learnings and the highlights of her CareerReady journey.

After joining the CareeReady Program, she learnt about various career options that are suitable for her with respect to her Interest, Aptitude and Reality and also received guidance about the next steps in order to pursue the career.

Vandana wanted to start working and contributing to her family income at the earliest but the lockdown caused by the CORONA Pandemic seemed to be a big problem. However Antarang placement team was able to connect her to multiple employment opportunities and through the practice gained during the mock interviews, she was able to crack an interview at HDB Financial Service as a Telecaller executive. Vandana says that skills learnt through the CareeReady program are helping her to excel in her personal as well as professional life.
